SPRING-1948

1921 27th Year 1948

Azalea Hino-Crimson

Member New Jersey Association of Nurserymen

John Vermeulen & Son, Inc.

NURSERYMEN

Westbury, L. I., New York Phone Westbury 328 Gentlemen:

It will soon be spring again and time to plant. an aid in compiling your planting lists we offer our list of stock available for spring shipment. We invite you to

look it over.

It has been, is, and always will be our policy to strive for quality. Quantity though important, is secondary.

We always, also, strive for perfection in our packing of

orders for we realize that quality stock at point of ship-ment can well be "quantity rot" at point of destination

if improperly packed.

Those of you who have purchased from us in the past have gratifyingly indicated your satisfaction with your repeated orders. We invite those of you who haven't to try our stock this spring. Make it a small order if you wish for we assure you it will receive the same prompt attention and careful handling.

Since a large number of items are in small supply may we suggest that you order at your earliest convenience to assure acceptance. Please refer to the back of the list for our terms and conditions of sale.

Wishing you a happy and a prosperous new year, we remain,

Very truly yours JOHN VERMEULEN & SON, Inc.

INTRODUCING

During the past several years we have introduced to the trade a number of new varieties of old species. We and many others think very highly of them and we thought

that it might be appropriate to introduce them as a group.

In addition to being tested for hardiness, propagation ease, growth, color, etc. they have also been tested for sales

value and have been found well liked.

We think it will be profitable for you to have a fair supply on hand when they become as well known to the general public as some of the present "stand-bys". Prepare now for these future demands.

Taxus Media Taxus Media Pyramidalis Taxus Media Pilaris Sentinalis PRICES AND DESCRIPTIONS ON PAGE 4

ACER PALMATUM BURGANDYLACE — Laceleaf Japanese maple. An impressive maple with burgandy-red and beautifully laced foliage. Obtained as a natural cross it has been tested and found hardy and a fast grower. Well liked too, by past buyers. Makes exquisite specimens.

	per 10	per 100
graft 2½" pot	12.50	100.00
lyr graft, 3" pot	17.50	150.00

AZALEA HINO-CRIMSON — A marvelous discovery of a natural cross between hinodegiri and amoena. Its clean, crimson-red flowers are striking contrast to the glossy, dark green foliage. More important however the flowers do not fade as do those of the hinodegiri. It is also hardier than the hinodegiri and a good forcer and fast grower. See cover for color photo.

2½" pot transplants	2.50	20.00

B&B 6-8"	9.50	80.00
B&B 8-10"	12.50	110.00

ILEX OPACA PYRAMIDALIS — Pyramidal American holly. Though this is not our discovery we originally selected it for propagation for its outstanding qualities. It is distinctly tall and pyramidal in form and is very hardy. The leaves are semi-glossy and make a striking background for the profuse red berries. Considered outstanding by many who have grown it on for years. Sorry — supply is very small this year.

21/4"	pot				2.50
21/4"	pot	1	yr	old	3.50

TAXUS CUSPIDATA VERMEULEN — Vermeulen yew. Introduced by and named after John Vermeulen a good many years ago and already well known throughout the country. The needles are more or less like brevifolia but do not curl. The growth habit is upright with a dense base. It is excellent for hedging and makes smart, superior specimen plants.

Rooted Cuttings — See page 6.

6.00 50.00
3 yr XX, 15-18"
7.00 60.00

TAXUS MEDIA KELSEYI — Berrybush yew. Introduced at the same time as the cusp. Vermeulen and commonly called "Berrybush Yew" because of its preponderance of bright red berries in the fall. It is a strain of Taxus media with semi dwarf habit and is extremely hardy. The needles are long, strong and dark green. Also well known, it can be used for large hedges but being of bush form is wisely used for specimen and foundation plantings.

Rooted Cuttings — See page 6.

1 yr X, 6-8"

2.00

16.00

TAXUS MEDIA KELSEYI UPRIGHT — This desirable variety was introduced in 1946. It grows into a large columnar plant meanwhile retaining the other qualities of the Kelseyi except that it does not berry.

Rooted Cuttings — See page 6.

TALL, NARROW AND HARDY!

The following 7 Taxus are of a group of 30 outstanding seedlings chosen in 1932 for testing and growing on. Of the 30 these seven so far have made the grade of being considered as truly worth while to offer to the trade. They are extremely hardy and in form are substantially tall and narrow as pictured on page 2. Their use for formal plantings and gardens will warrant much pleasure and praise.

e.		18-24" each	3.00	

TAXUS MEDIA PILARIS — Pillar yew. a, d & e Long narrow, medium dark needles. Narrow growing habit. Short, upward sloping branches.

TAXUS MEDIA PILARIS GRANDIFOLIA — Bigleaf a, c, d & e Similar in shape and growth to Pilaris but with very much larger needles. The effect is rich and unusual.

TAXUS MEDIA PYRAMIDALIS - Pyramidal yew.

A fast growing yew with vertical branches and striking black-green foliage. Truly a rich showy, full-bushed column.

TAXUS MEDIA PYRAMIDALIS ROBUSTA — Obelisk a, c, d & e Similar to Pyramidalis but heavier branched. The needles are large and more glossy.

TAXUS MEDIA SENTINALIS - Sentinel yew The most surprising of the seven. Introduced for the first time last fall. Just sufficiently clothed with short branches and foliage to densely cover the main stem.

TAXUS MEDIA STRICTA—Narrowbush yew. a, c, d & e The needles are short and thin, giving a compact effect which the almost vertical branches and dwarf, narrow shape augments.

TAXUS MEDIA STRICTA VERIDIS — Grassgreen yew

a, c, d & e Similar to stricta in every way except the needles which are longer and a gay, bright green both winter and summer. Also a faster grower.

TSUGA CAN. COMPACTA No. 2 — A local find that has proved to be one of the good dense hemlocks. Light green color, slow grower and a bit irregular in habit.

3" pot 1 yr old grafts 12.50

TUSGA CAN. PYRAMIDALIS — Pyramidal Canadian hemlock. A really true pyramid. Distinct and different. This plant grows tall and narrow and has very good color. Marvellous for foundation or specimen plantings.

grafts 12.50 100.00 pot 1 yr old grafts 17.50 150.00

GRAFTS

Grafts will be available for shipment approximately May 1st. We reserve the right to delay shipment if necessary to the best interest of the plants. Only strong, healthy scions and understock used..

POOTED CUTTINGS

ROOTED CUTTINGS

(See next page)

All Cuttings are guaranteed to size. We use only strong, vigorous cutting wood. Our use of hormones assures an abundance of healthy roots that are pliable for safe shipping. Ask for quotation on large quantities. Not less than 25 of a variety. Not less than 100 cuttings per order when cuttings only are ordered. For shipment approximately April 15th, 1948.

SPECIMEN LANDSCAPE STOCK

You would thrill to see this block of large Taxus. Every plant is a specimen. They are the original stock plants of Taxus cusp. Vermeulen and Taxus media Kelseyi as well as some Taxus media Hicksi and cusp. brevifolia nana. As such they have always been well cared for and kept in the best of condition. They are ideal for estate, industrial or community plantings or for your display grounds.

TAXUS CUSP. VERMEULEN (Upright brevifolia) 100 plants in sizes from 4-4½' base and 5½-6' height to 5½' base and 7' height priced from \$30.00 to \$65.00 each. These have been grown in a general pyramid form

but a

a few are globular or well rounded.

TAXUS MEDIA KELSEYI (Berrybush Yew) plants from 6' width and 5' height to 7' width and $6\frac{1}{2}$ ' height priced from \$40.00 to \$75.00 each. Grown in a shape more or less resembling old boxwood but not as compact. Presents a lavish display of red berries in the fall.

TAXUS MEDIA HICKSI (Hicks Yew) 15 plants from 4' width and 6' height to 5½' width and 7' height priced from \$40.00 to \$65.00 each. Grown in pyramidal form and well sheared.

TAXUS CUSP. BREVIFOLIA NANA wide and 3½' high at \$30.00 each. These are the

real slow growing type.

Offered also are the following beautiful specimens:

RHODODENDRONS — A few white and pink in sizes from 6' width by 6' height to 8' width and 9' height.

LAUREL — 3 or 4 plants 7' wide by 6' high or

larger.

MAGNOLIA STELLATA WATERLILY hardier form of the Star Magnolia. Each branch has pink tipped double blooms in April. Bushy growth. Very beautiful. From 5' width and 7' height to 6' width and 8' height priced from \$30.00 to \$40.00 each.

MAGNOLIA SPECIOSA — 2 plants, 12' wide by

15' high.

MAGNOLIA CONSPICUA - 1 plant, 12' wide by 15' high.

MAGNOLIA LENNI - 2 plants, 10' wide by 12'

high.

Arrangements can be made for truck and freight car loading. Cost of LCL rail shipment is prohibitive. Plants can not be treated for shipment out of the Japanese Beetle zone.

Prices listed are for plants dug with good solid ball loaded at nursery. Special quotation if dug by haser. Not equipped to dig Mag. conspicua, lennei and purchaser. or speciosa.

Address all inquiries and make checks payable to **JOHN VERMEULEN,** Box 441, Westbury, L. I., N. Y.,

telephone Westbury 328.

VISITORS WELCOME

We always welcome visits from our customers. nursery is located on Westbury Avenue, in Carle Place, between Westbury and Mineola. If driving, use Grand Central and Northern State Parkway to exit No. 31. Turn south on Guinea Road to next intersection which is West-Proceed about 1 mile to nursery. bury Avenue. Long Island Railroad has stations in Westbury and Mineola.

We would appreciate advance notice so that we can age to be present. We can't guarantee immediate arrange to be present.

digging or preparing of orders.

Saturday afternoons we make an attempt to clean up and allow everyone to get home early. No business transacted on Sunday.

TERMS AND CONDITIONS OF SALE

PRICES: Prices quoted herein cancel those in all previous lists and are subject to change without notice. They apply only to bona fide nurserymen, florists, dealers, etc. Please use printed stationery or enclose business card when ordering. 10-24 at 10 rate, 24-249 at 100 rate, 250 or more at 1000 rate. Please add 20% to orders of \$5.00 or under and 10% to orders of \$10.00 or under.

TERMS: Established customers net cash. All others cash with order or C. O. D. 25% deposit to accompany all C. O. D. orders. Prepaid orders will be packed free, all others at cost.

PACKING: All orders shipped will be packed in wooden boxes, crates or bundles in such a manner as to assure safe arrival. Prepaid orders will be packed free. All others at cost.

SHIPPING: Shipments are made at the cost and risk of the purchaser and our responsibility ends upon delivery to the forwarder. Shipments will be made via Railway Express unless otherwise specified and only when stock is ready and then in order of receipt. PLEASE INSPECT DAMAGED OR OVERDUE SHIPMENTS BEFORE ACCEPTING AND REPORT ALL DAMAGE TO THE AGENT. DUPLICATE RECEIPTS WILL BE FORWARDED ON REQUEST.

CLAIMS: Claims on grade and quantities will be entertained only when made within 10 days after receipt of shipment.

GUARANTEE: We shall willingly replace any stock that proves untrue to name or refund the money if stock is not available but in no case shall we be liable for more than the original purchase price.

NOTICE: All stock is subject to prior sale. Orders will be accepted only on condition that they may be voided due to crop failure, inclement weather, drought, fire, frost, strike, etc.

NURSERY FOR SALE

We are in the process of relocating the entire business at Neshanic Station, near Somerville, N. J., and hope to have the move completed by fall of 1949. This will leave vacated about 2 acres of good land with approximately 7000 sq. ft. of greenhouse space, a heated two-car garage, heated workshed, and several frames. Also on the same property is an excellently landscaped, well kept, modernized semi-bungalow. All for sale.

This creates an excellent opportunity for a business combination of a retail florist or nurseryman and garden supply store — a sort of garden center where supplies, tools and materials can be purchased along with plants and flowers and where landscaping and maintenance schedules can be arranged. Nursery is located on a through road with bus route between three growing communities. 1,200 new garden type homes on 60 x 100 and 80 x 100 feet plots within walking distance. 5,000 new garden type homes within a 10 mile radius and all occupied. Competition should not be too keen for an agressive and intelligent owner.

Address your inquiries to John Vermeulen, Box 441, Westbury, L. I., N. Y., telephone Westbury 328.
